INFORMATION BULLETIN

**No. V 210/3b
V 410/15b
V 503/9b
V 506/12b**

Refers to: Propeller types V 210, V 410, V 503, V 503P, V 506.
End of new propeller production.

Reason: Expiration of a period more than 30 years from manufacturing of the latest propellers of above mentioned types.

Measures: The manufacturer notify end of new propeller production of above mentioned types.
The manufacturer will keep the technical documentation for maintenance needs during the propellers operation.
Parts of mentioned types that are passed into other propellers types stay henceforth in productions. Other parts and possible user's requirements for airworthiness of above mentioned propellers can be ensured by an agreement with the manufacturer.
The manufacturer henceforth will not show these types in summaries of newly serial produced types.

To be carried out: Manufacturer.

Bulletin effective: By the date of approval.

Date: November 25, 2003.
