

### Introduction of P-S-2A Beta Switch

Avia Propeller introduces P-S-2A Beta Switch for Avia P-W2( )-( ) series governors.

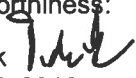

The P-S-2A Beta Switch allows signalization of the beta regime closer to minimum flight angle.

The P-S-2A Beta Switch adjustment after installation on the engine is described in Avia Operation and Installation Manual No.E-1707, which is freely available at [www.aviapropeller.cz](http://www.aviapropeller.cz)
